July 19, 2011

Dear Resident:

The North Shore School District is ready to begin the renovation of the High School Track & Field Area. This work is scheduled to begin at the end of July 2011 and continue through October of 2011. The Track and Field area will remain closed to residents and the general public, for the duration of the project.

The track and field work will consist of the excavation and removal of the existing Track and Field, the installation of an underground drainage system and the installation of a new synthetic field and track surface.

During normal working hours (7:30am-3:30pm) for the duration of the project, residents around the construction site will see construction equipment and the presence of delivery vehicles. Our contractor will be staging his equipment and materials at the end of the lower parking lot near the sump, on school property.

In some instances deliveries may occur before or after normal working hours, but great care will be taken to avoid this whenever possible. As with any outdoor project weather may impact the schedule and the contractor may have to work past the normal working hours and on Saturdays to catch up and stay on schedule.

The school district will make every effort to make sure this project moves forward on schedule with minimal disruption to local residents. We ask for your patience and understanding during this process. If you have any questions or concerns please contact me John Hall at 516-852-4334.

Respectfully

John Hall
