

North Shore High School Hosts the Annual Diabetes Walk

The day was wonderful with all North Shore District Schools participating in the annual walk for the cure for diabetes. The student coordinators for the walk as their senior experience were Justin Wang & Colin Henneberger and what a great job they did.....over \$8000 was raised and donated to JDRF with 36 sponsors participating for this event. The North Shore Key Club, Builders Club, and North Shore Kiwanis Club supports this event annually by registering the walkers, giving out food and tee shirts paid for by those clubs and given to all participants.

The Gecko from Geico was even on hand.....what a fun event!

Pictured are some smiling faces who had a great time making a difference
