

The Senior Citizen Prom At North Shore High School 2011

The annual senior citizen prom hosted at North Shore High School was again a huge success. Seniors from the community come together for an afternoon of dancing with the North Shore students, dinner is provided by local merchants, as well as raffle prizes. A special thank you to many community supporters who donated items for the event: The Dinner: Hunan Taste, Caggiano's, North Shore Farms and Abeetza Pizza. The Dessert: Sea Cliff Bagel Café. Large raffle prizes donated by: Soleil, The Glen Head Pharmacy, Sea Cliff Paint & Hardware.

At the end of the afternoon we crown the King & Queen; a special touch to end the afternoon, thank you to our photographer for the senior portraits, Robin Appel who helps capture the moment for one and all. Many of our yesterday heroes have never attended a prom so this is most definitely an event to be entered and remembered in their diaries. Many North Shore High School members are involved with this gala affair to include the Junior Class Advisors, Jen Wilson & Miram Mabrouk and the prom parent committee for allowing the use of the tent and all materials from the Junior Prom the night before.....yes we get to use their "big top."

Dr Robert Gerver, a math teacher by day here at North Shore H S, and a member of the Just Sixties Band by night, was the volunteer D.J for the event; and a special thank you to our caterer Angie and staff member Jean Latuso who manned the kitchen for the food galore here at North Shore . This event is spear-headed by the North Shore Key Club who are the hosts and hostesses for the afternoon; all students at North Shore are invited to assist as volunteers for this event.

Yes in deed this was a true North Shore family

Last but not least.....to the Efstathiadis family: Eleni, the chairperson, mom Filanthe, to include all siblings....Christina, Alexi and Sophia; the family beyond compare who pull it all together.

Just another "Community Service Event" for the North Shore Community
It is our pleasure
