

**North Shore Key Club's Spot Light for Service in 2009-2010
The end to a new beginning for learning at Harbor Day**

The North Shore Key Club has just completed their 2009/2010 Single Service project....North Shore Lights the Way for Learning at Harbor Day Care Center. This was an event that was very successful as well as fun for all Key Club members. The club created learning experiences for Harbor Day Care Children using our 5 senses: taste, smell, hearing, touch and sight, and created fun presentations for the Harbor Day Care children. Pictured are the North Shore Key Club members in action at Harbor Day; lighting the way for learning.
