

Net Nanny Parental Controls

Net Nanny™ is the most effective and flexible Internet filter available today! The state-of-the-art dynamic filtering engine ensures that your family members won't be exposed to pornography and other offensive content.

Net Nanny™ is the only family-oriented filter that allows you to manage your home Internet use from anywhere at any time through powerful Remote Management tools. Net Nanny™ can be used as configured right "out of the box" or you can adjust the filter settings according to your personal preferences and needs. And monitor web browsing and instant messaging from anywhere.

CyberPatrol

CyberPatrol software allows you to select the types of websites you don't want your kids to see. The parental controls act as an effective web blocker, permitting you to block adult sites, unwanted games and programs, as well as IM. Plus, you'll be able to monitor their online activities. You can even set time limits for how long they can surf the web.
