Understanding Section 504

This parent university is designed to offer a comprehensive examination of Section 504, a vital piece of legislation that safeguards students from discrimination based on disability. Participants will explore the extensive range of protections that Section 504 guarantees, ensuring that all students have equal access to educational opportunities.

Attendees will delve into the regulations that frame Section 504, gaining a clearer understanding of the rights and protections available to students under this law. The session will also cover the eligibility criteria, identifying the conditions that qualify a student for support under Section 504.

Moreover, participants will receive an overview of the essential elements involved in developing a 504 Plan. This plan is crucial for outlining the specific accommodations and modifications that ensure students with disabilities can thrive academically and socially within the school environment. Join us for this informative workshop to enhance your knowledge and skills in supporting all students effectively.
